

TrueConf Enterprise

Allows customers to effectively manage and scale video conferencing infrastructure across large organizations and complex networks.

TrueConf License Manager

TrueConf Enterprise add-on that automatically distributes licenses between multiple servers based on the video conferencing usage and individual set of parameters for each TrueConf Server instance.

TrueConf Directory

TrueConf Enterprise add-on that integrates several video conferencing servers into unified address space with global user directory.

Load Balancing

When holding geographically distributed video conferences, TrueConf Server instances exchange only the missing streams, which significantly reduces network load between branches in the enterprise network.

Redundancy and Scalability

Thanks to the ability to duplicate and geographically distribute nodes, the video conferencing network is reliably available to users under any load. Supporting **millions of subscribers** doesn't require you to invest heavily in the video conferencing infrastructure.
